LEVOLITE COMPANY

176-186 GRAND STREET

NEW YORK CITY, N. Y.

PRESENTING

*Levolite Styles*

THAT ENDURE

A

NEW ERA in lighting the American home is now introduced by Levolite. Leading decorators and architects have been interviewed and their comments regarding style trends have been carefully noted. Hundreds of typical and unusual American homes from modest cottages to palatial town houses have been analyzed, and the ideal solutions to their lighting problems have been found.

THE FIXTURES illustrated in Book L are the result. Passing fancies and fads have been ignored. Every Levolite has been styled to endure, and to look as well in future years as the day purchased.

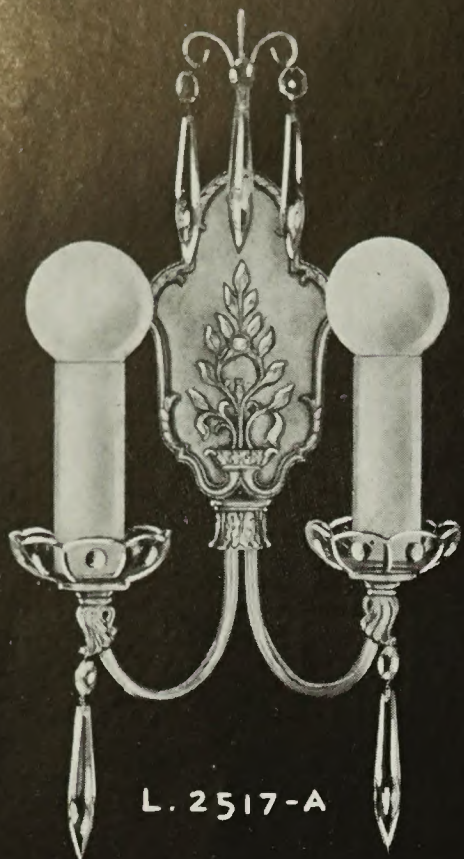

A HIGH DEGREE of craftsmanship and style will be found in all Levolite products regardless of price. Levolite's reasonable prices are not the result of short cuts or poor manufacturing practice. Careful purchasing, good shop management, satisfied skilled employees and volume production has resulted in savings which are passed on to the purchaser.

LEVOLITES ARE UNCONDITIONALLY GUARANTEED AS TO FINISH AND CONSTRUCTION, as Levolites have been for the many years they have been manufactured. This guarantee is possible only when raw materials of best quality are used. Levolite castings are made of virgin metal and even a small percentage of scrap metal causes their rejection. Wiring materials are approved by the National Board of Underwriters, chemicals are C.P. and only highest grade lacquers which will not tarnish or peel are used. All lighting fixtures are tested, examined and carefully packed in individual cartons. Every operation of manufacturing takes place in an airy, daylighted room under the watchful eye of skilled workmen, who are interested in making Levolites the best lighting fixtures in the world.

CRYSTALS and jewels have a particular tendency to diffuse the light. They break the rays into myriads of particles, spreading radiant beauty. Their splendor and voluptuous exuberance bring back to us the glamor of by-gone days.

BY day and by night the ornamental beauty of crystal fixtures are enhancing. Their scintillating brilliance enlivens the interior with a feeling of warmth and comfort.

NOW, more than ever, crystal fixtures are in demand. Levolute crystals are

# Age

imported from Czechoslovakia, where they are made by expert craftsmen who have inherited their skill from their ancestors. For centuries the sons have followed this trade of their fathers, and around this clever handicraft, a large industry of world importance has been built. It is there that Levolute crystals and jewels are cast in molds and cut to shape, and then wood-polished to perfection.

LEVOLITE crystal fixtures represent a permanent investment.

Finish: Old Gold.

# Splendor of Crystals

LEVOLITE crystal fixtures are the apex of artistic lighting. Every piece of crystal and jewel is individually cut by hand and wood-polished by charcoal. It is an intricate process practiced by the inhabitants of Bohemia for generations and the finished product is an object of scintillating beauty.

THE crystals in their own right spill light by day and by night and crystal fixtures are not only a practical instrument of lighting but also a fitting ornament for any room.

Finish: Old Gold.

MIRRORS have always been in great favor with the ladies. Their adaptation for boudoirs, dressing and powder rooms is an appropriate innovation by Levolite. These fixtures add charm to an intimate setting. The intricate scalloping of the cotton-polished mirrors, their fine silvered finish and the reflection of the light in glass and mirror are an additional test of the ingenuity of Levolite craftsmen. It suggests French settings and will enrich with an air of cosiness and delicacy most any other interiors.

Finish: Old Gold.

# INDIRECT

## Showers of Light

THE invention of Indirect Light and its practical application in Modern Lighting Fixtures by Levolute marks a turning point in the history of illumination.

"SHOWERS OF LIGHT" seem to break through ceiling and walls and are reflected. By this diffusion the light loses its glare and is rendered harmless when it reaches the human eye on the rebound.

NO other light has the same healthful effect on the eyes. No other type of fixture provides the same abundance of light and at the same time is as simple and attractive in appearance.

"SHOWERS OF LIGHT" are made of all Brass and are finished by the Levolute process, which assures you of durability and everlasting beauty.

# SEMI *and* TOTAL INDIRECT LIGHTING

**L2528**

THE advantages of semi-indirect Brackets are readily apparent when one considers that the light thrown upward will illuminate the room from above without a shadow, while the light directed outward is reflected through an Aurora\* glass shade, resulting in eye comfort and clear visibility, unencumbered by glare.

**L2528**

Angular bracket with Aurora glass, wired pin switch. Length 12½", Extends 5¼".

Finish: Pewter and Gold or Old Bronze.

THE ceiling fixture shown here is unmatched by any other lighting implement. It reflects both indirect and direct light, and in addition, the Aurora glass disk at the bottom acts as a purifier, transmitting pure, mellow light—healthful for your eyes.

**L2559**

Semi and total indirect fixture with Aurora glass diffusing disk. Length. 36".

Finish: Old Bronze or Colonial Gold.

**L2559**

**L2529**

MORE than anywhere else, it is in the corner or niche of a room that the exuberant stream of reflected indirect light is used to its best advantage. These angular brackets, more than any other fixture, deserve their name

*"Showers of Light"*

**L2529**

Angular bracket totally indirect, wired pin switch. Length 12½", Extends 5¼".

Finish: Old Bronze or Colonial Gold.

# MODERN HOMES

should be equipped with modern fixtures. Semi-indirect and total indirect light are a pre-requisite today in Bed rooms, Breakfast rooms, and Kitchens, where better light is required.

INCREASED vision and the elimination of irritating glare will be appreciated by those who wish to save their eyesight. Delicate craftsmanship and design are part of these fixtures.

THE light emanating from them is soft, mellow and shadowless, will soothe your nerves and improve living conditions in the modern home.

# AURORA

## *the Light of To-day*

TO increase the amount of light and to decrease the cost of the electric current—to take the glare out of light and render it harmless to the eyes—that has been the aim of Levolute for many years.

MODERN science has accomplished many wonders during the last decade and Levolute has taken advantage of these recent developments by adopting them in the field of lighting. The same principles and methods employed in modern science are also used in modern Levolites. They are the result of much study and patient effort to improve illumination.

LEVOLITE found it necessary to engineer light in such a manner as to obtain an equal and even distribution of the Rays. Furthermore, shadows had to be avoided. To achieve this result, it was necessary to "sift the light" through a strainer and redistribute it with invigorated intensity. This, after long experiments, has been accomplished with AURORA GLASS.

LEVOLITE has called this glass Aurora because Aurora is the name of the Goddess of the Rising Sun, and because this light personifies a rising new era of light . . . THE LIGHT OF TODAY . . . AURORA.

L.2593

# The Light of To-day

AURORA protects the eyes from strain, and will prevent defective eyesight.

AURORA diffuses the light and eliminates the glare. It makes work easier and pleasure more enjoyable. With AURORA lighting fixtures in the home, you may go about your chores, enjoy yourself reading, writing or playing cards with the ease that only natural daylight can offer you. You will neither strain your eyes nor tire them — the scientifically constructed AURORA Shades will absorb all the glare. AURORA light is soft and mellow, it is the light that everybody has been waiting for, the Light of Today.

# AURORA

*The Light of Today*

is the perfect light for the home. It is the only light that harmonizes with all types of interiors . . . enhancing . . . beautifying.

REGARDLESS of the kind of home you may have, regardless of the interiors of your rooms, here's a Levolute that exactly meets your needs . . . that will quickly pay for itself out of what it saves you.

MORE than 60% of the people in the United States suffer from poor eyesight and headaches which are the result of bad lighting. You can easily avoid it by selecting beautifully designed Aurora Lights for your home.

# Decorative AURORA The Light of To-day

THE illumination in the house reflects Style and Character ONLY when the proper selection of Lighting Fixtures is made, for a fixture can add that finesse which is so desirable and distinguishes the better home from the mediocre.

PEOPLE who wish to save money often use inexpensive fixtures, but those who love beautiful things will immediately recognize the difference. Levolute fixtures, however, are more expensive looking and are worth more than they cost, for they are produced at a price that does not seem possible—below their actual value.

## Aurora is the Light of Today

IT is the only light that provides ample glareless and healthful vision. The characteristic quality of Aurora glass is to sift the light and remove all shadows, making it the only light harmless to your eyes.

THE exceptionally beautiful designs of the wine red laurel spray fired on the Ivory background of the Aurora glass shade lends a delightful decorative touch to these AURORA fixtures.

TO provide the proper light for the Dining room has been a problem difficult to solve in many households. It is in this room, after all, where a family spends most of its time, and it is there that the need for good light is apparent.

LEVOLITE has solved this problem to the satisfaction of lighting engineers. This Aurora for the Dining room table is a gracious streamlined ornament, designed in the modern trend, it provides the necessary light where it is most needed.

THE remarkable feature of this fixture is the flood of glareless light diffused through an Aurora glass disk, and directed on the table. The light emanating from the five Aurora glass shades grouped around the fixture, directs the light to the ceiling and provides healthful and pleasant illumination for the entire room. Both are controlled individually by a three way switch, controlling three stages of light, BRILLIANT, SOFT, and SUBDUED.

Stock Finish: Bronze and Chrome.

Stock Finishes: Ivory and Gold, Old Bronze or Bronze and Gold.

# The Stuart Series

## for ENGLISH HOMES

L.2741

THE sturdy "Empire Building character" of seventeenth century Englishmen, is reflected in the style of decoration now known as Elizabethian and Jacobian.

THE rugged beauty and sound construction of these periods have been carefully preserved in the creation of the fixtures featured on these pages. Built as their forerunners were—to outlast a century—these fixtures will give an English room a rich appearance and are eminently suitable with the finest of rugs, furnishings, and appointments.

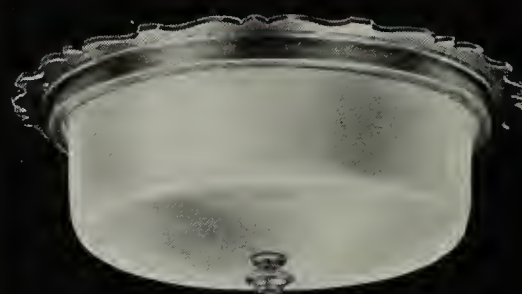

THEIR unpretentious, but definite attractiveness, results in their approval by architects, decorators and others of good taste. The color of old English Bronze, combined with half polished iron and the method of hand finishing employed, give them a distinction not possible in mechanically produced merchandise. They will harmonize with almost all color schemes.

THE glass shades are manufactured of genuine Aurora ivory glass, well known for its soft, mellow, glareless light.

THOUGH equal in quality to the finest made custom fixtures, this series will find favor where a limited budget and good taste go hand in hand.

SILK shades not included in price. (For price of same, refer to price list).

Finish: Old English Bronze with half-polished Iron.

## *Distinguished*

THE influence of Christopher Wren prevails throughout that age of gay social life, sparkling wit and conversation—the age of Burke, Fox, Sheridan and Beau Brummel—known as the Georgian Period. It was in this spirit that clever Levolute designers created this series of lighting fixtures and dedicated them to that apostle of the Georgian period, Christopher Wren.

DRAWING rooms with Georgian fixtures will be distinguished by their decorative dignity, their con-

# The Spirit of

EMBODIED in this line of fixtures of the Federal Period is the spirit of American Independence. The most cherished sentiments of our forefathers are reflected in the symbols of the stars and the Federal Eagle.

IT is quite unusual to find authentic Federal fixtures, and it is still more unusual, to find them priced so reasonable.

# PROVINCIAL *and*

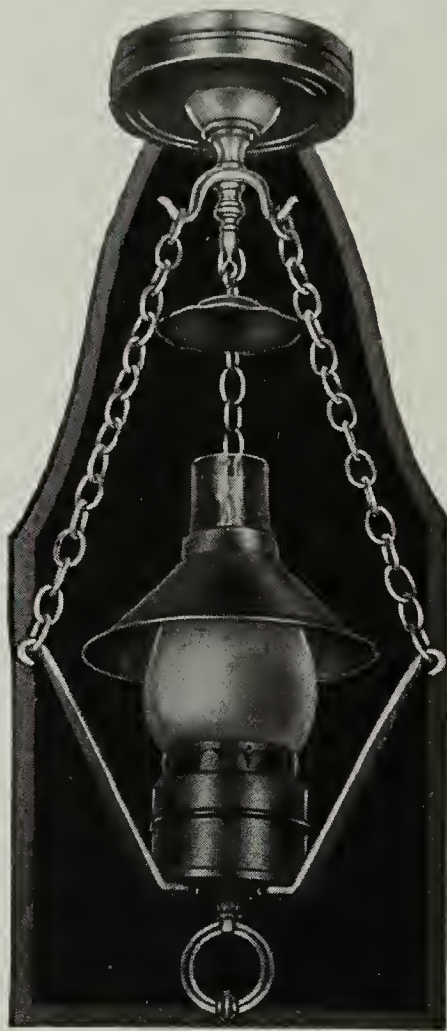

HERE, as always, Levolite seeks to preserve the authentic designs of the Provincial and early American era. The strenuous struggle for existence of the farmer-colonist finds a whole-hearted expression in the implicit modesty of these lighting fixtures. They shed warmth and coziness on the hearths of Colonial farmhouses and cottages.

Finish: Old Bronze with Pewter Hoods.

# EARLY AMERICAN

THE primitive simplicity and massive sturdiness of these fixtures are symbolical of the hardships of the early American settlers. The frosted clear top chimneys are true reproductions of the earliest glass ware in this country, and the perfect execution of the heavy Brass founts, are examples of workmanship for which Levolute fixtures have become famous. The beauty of this series and its lasting quality have made it popular among those who love and appreciate American tradition.

# REVIVED BY LEVOLUTE

# Cape Cod Series

THESE are the fixtures and lanterns of the thrifty New Englanders who, after roving the Eastern seas, found refuge, anchorage and a chance for barter in that great peninsula, Cape Cod.

THE frugal taste of these Colonists is expressed in the massive and sturdy construction, the bold broad urns and the Old Bronze finish of these fixtures.

THE early settlers established a beautiful style of their own, hard in form and crude in finish, conditioned by the daily wager of their lives in an utter wilderness. The feeling of this environment has found expression in the daily commodities which sprang more from a sense of necessity than from a desire for luxury. The children's children of these early pioneers still live in the same region of Cape Cod, though the forests have disappeared and electricity has substituted where the oil of the whales burned in the founts of the lamps.

THE Cape Cod series is styled for every room in the house and they will harmonize with Colonial and Provincial interiors, Cape Cod cottages and farmhouses.

THIS series is priced below your keenest expectations.

Finished by Levolite process, they will endure indefinitely.

Stock Finish: Old Bronze.

THE feeling, that a clever designer has etched so deeply into his work, will lend a fitting expression of individuality to your home, be it modern, or decorated along Federal, Georgian, or Colonial lines.

HANDCUT Glass Ceiling Fixtures will graciously adorn Upper Hallways, Living, Dining and Bedrooms.

THESE fixtures will always be in style and are comparatively inexpensive. The crystal glass is sandblasted on the outside, the design is handcut and then hand polished to transparency.

THERE are several different patterns and several finishes available. Make your selection in accordance with your needs and enjoy an asset of genuine beauty, that will outlast any other fixture in your house.

LEVOLITE presents these fixtures at a great saving.

Finishes: Colonial Brass, Old Bronze or Pewter.

Fixtures No. 55 and No. 2113 are also finished in Chrome.

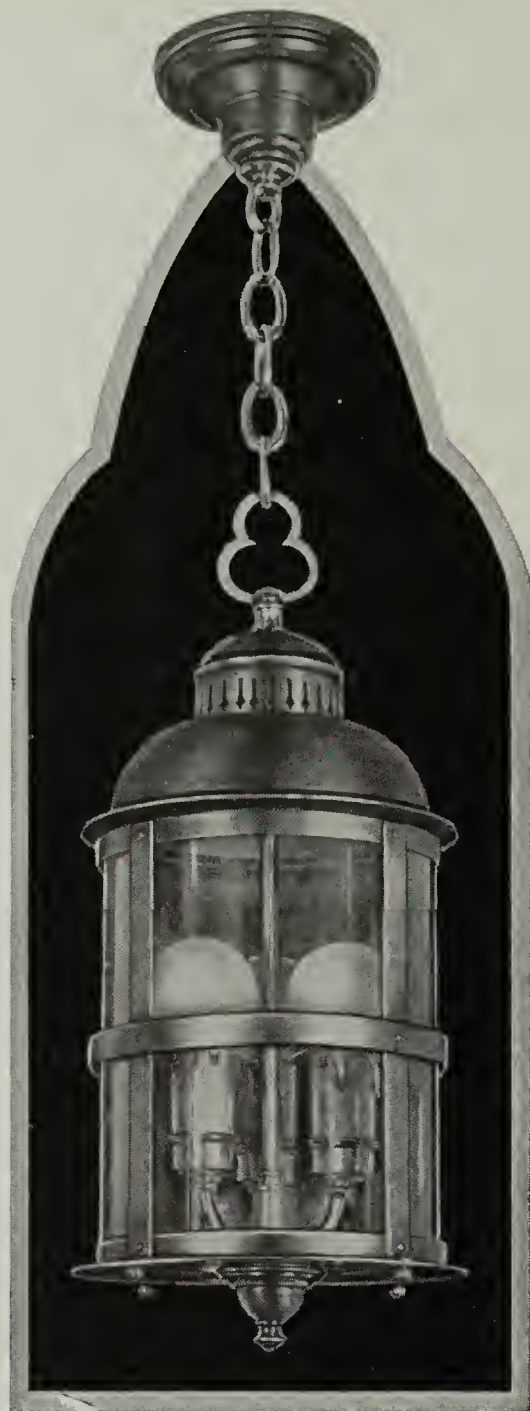

**L1023** Length 10 1/2", Width 13 3/4", Glass 12"

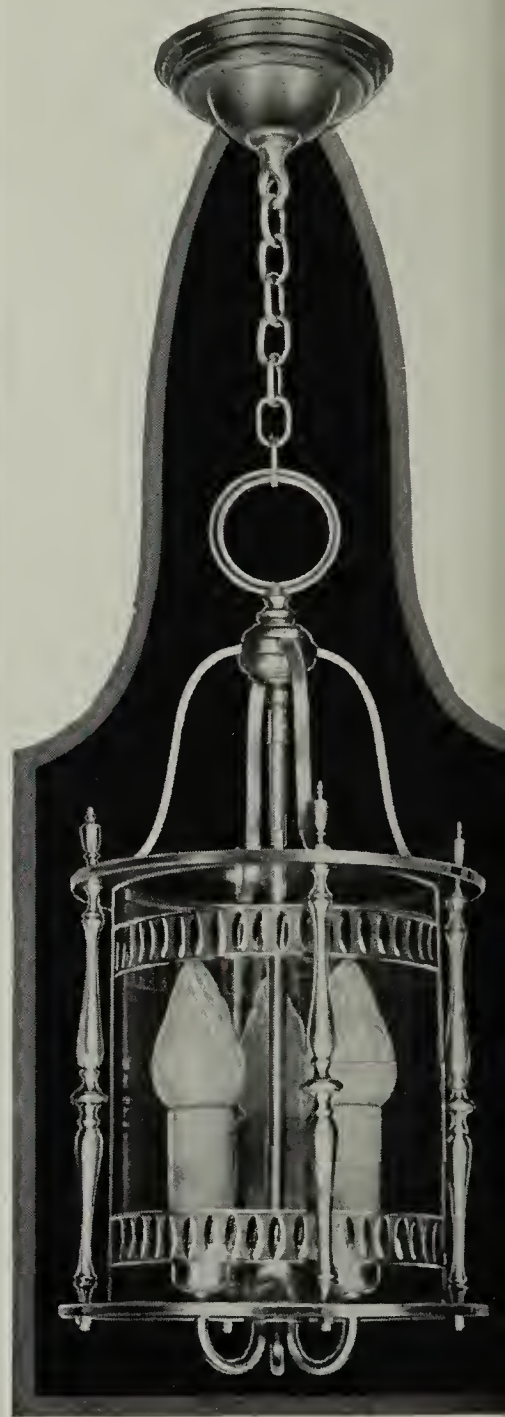

**L1870** 4 Lights  
Length 48" Width 10½"  
The Federal motif is here emphasized with the tooled eagle, pierced stars in the spinings and the graceful hand turned spindles. Cylinder polished glass.

**L1868** 1 Light  
Length 36" Width 6"  
Square shaped lantern with bevelled and mitre cut plate glass panels.

**L879** 3 Lights  
Length 42" Width 8¼"  
For Provincial interiors—hand made side supports fastened to metal spinings. Cylinder clear polished glass.

**L1899** 3 Lights  
Length 42" Width 9"  
Smart for American homes, delicate shaped supports and unusual olive cut design in clear glass.

# THE CORRECT LANTERN FOR

THE main entrance hall is one of the most impressive parts of both town and country homes. It is there, between portals and stairways, that the guest will unconsciously stop to appraise the place just entered. In that wide

spaciousness of the halls, the minor decorative touches gain in importance and reflect the good taste of the host.

TO illuminate these halls correctly and effectively is a pre-requisite of good architecture

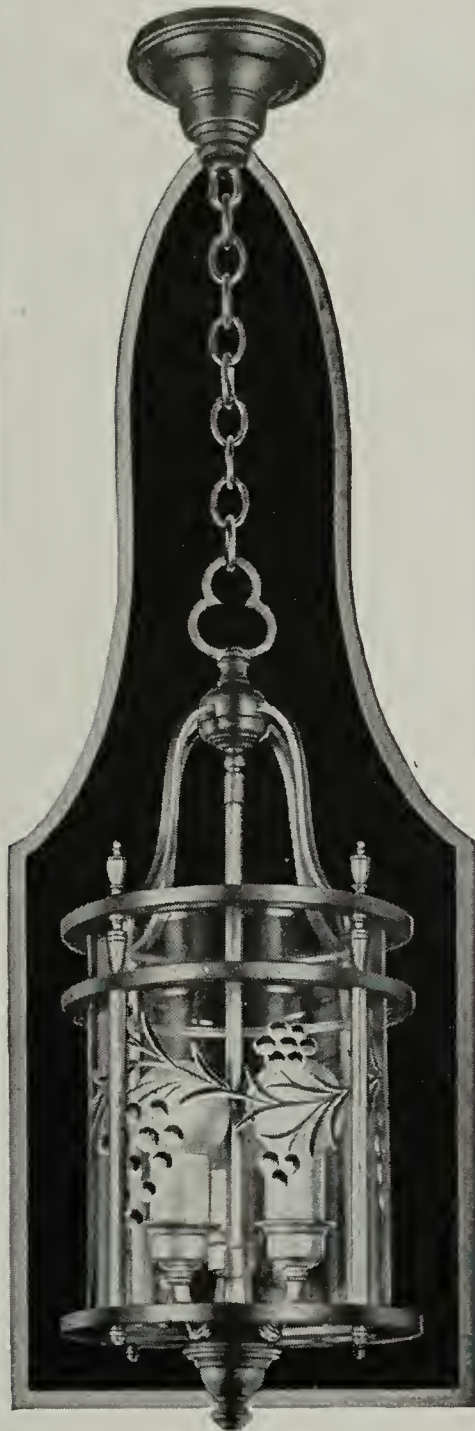

**L1880** 4 Lights  
Length 48" Width 10½"

Lantern with graceful solid brass turned spindles and shapely urn finials with clear cylinder, for spacious entrance halls and libraries.

**L893** 3 Lights  
Length 42" Width 8¼"

Dramatic in simplicity, graceful in line. Grape cluster cut into clear glass, permitting the candles to show through.

**L2604** 3 Lights  
Length 42" Width 10"

Outstanding in character. Cut glass urn with flower spray design.

**L1869** 3 Lights  
Length 48" Width 9½"

For large halls or libraries. Bevelled and mitre cut plate glass panels in hexagonal shaped lantern made of cast Brass.

# YOUR MAIN ENTRANCE HALL

and smart styling for today's interiors.

LEVOLITE designers created and styled these beautiful lanterns for Colonial, Federal, Georgian and English spacious entrance halls.

EACH lantern featured on this page corre-

sponds in style and spirit exactly to the period for which it was designed.

BUILT by LEVOLITE craftsmen and finished by the Levolute Process they will endure indefinitely.

FINISHES: Colonial Brass, Old Bronze or Pewter.

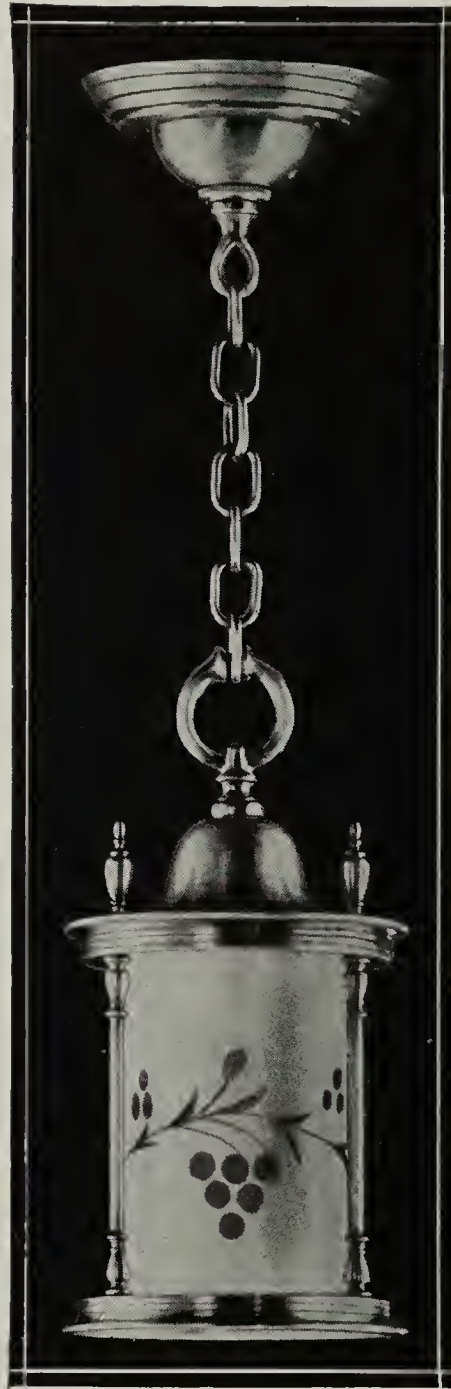

# The First Impression Lasts Longest

**L1898**—Sturdily constructed and built to last—will grace entrance halls of modest proportions—suggested for English and Colonial homes. The frosted cylinder with olive shape design cut into the glass is 5" x 7". Length 36", Width 6 1/4".

**L1897**—Similar to L1898, smaller in size, styled for Entrance halls, foyers, dens or rear halls. The cylinder is 4" x 6". Length 36".

**L877**—Similar to L878, smaller in size and lower in price. The cylinder is 4" x 6". Length 36", Width 5 1/4".

**L1000**—Typical Colonial design now in vogue. The aristocrat of the reasonably priced group for modest American homes. The grape cluster is delicately cut and polished in the frosted cylinder, which is 4" x 6". Length 36", Width 6".

WHEN your guests cross the threshold of your house and enter the hall, it is there that they gain their first impression of your home—the most important one—and the one that can never be erased.

LIGHT plays a major part in the appearance

of halls and foyers, and the decorative touch of these delightful lanterns go far. They will make the most monotonous halls look cheerful.

Stock Finish: Colonial Brass.

Available on order only in Old Bronze or Pewter.

*Is Your Entrance Hall Inviting*

**L897**—Reproduced from original found in the New England states, this graceful Colonial lantern for beauty, simplicity and lasting quality cannot be matched for the price it sells for. The grape cut cylinder is 5" x 7". Length 36", Width 6¼".

**L963** — Authentic Colonial shaped urn set into brass spinings and beautifully finished by the LEVOLITE PROCESS—will last indefinitely. Length 36", Width 5¾".

**L958**—The frosted glass is engraved with the motif of the star pendant and graduated beads, which are then polished. Ultra smart in Ebony and Gold for Federal, Modern, Empire or Regency interiors. Cylinder is 5" x 7". Length 40", Width 7".

**L957**—Similar to 958, smaller in size.

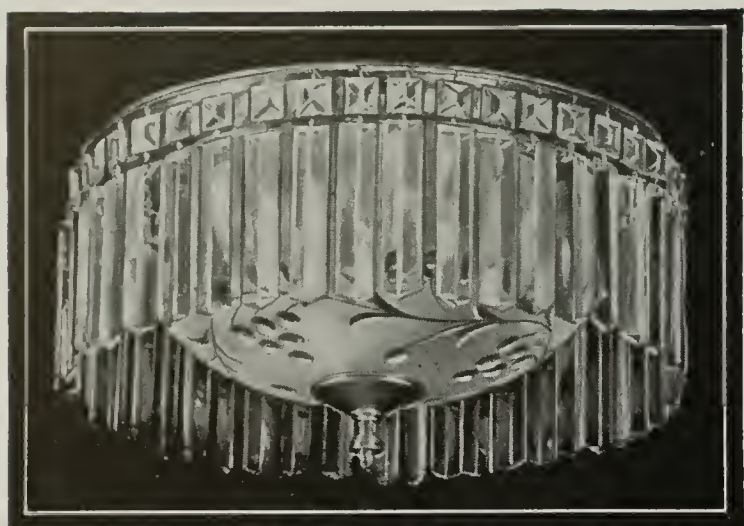

**L878** — Inspired by Cape Cod architecture and MADE ENTIRELY OF BRASS AS ALL LEVOLITES ARE—this lantern will provide ample light and give new life to halls or dens in Colonial, Provincial or country farm cottages. The clear polished glass is 5" x 7". Length 36", Width 6".

# HAMPDEN SERIES

THE authentic Colonial influence is an outstanding feature in a fixture whose fine appearance and subtle beauty is successfully matched by its simplicity. This series is another of the supreme values of the season in the low priced field, offered by Levolute. These fixtures cannot be excelled by much higher priced merchandise.

THE graceful swing of the arms and the delicately hand-turned spindles speak for the superb workmanship of Levolute craftsmen. The construction is solid and practically indestructible,—guaranteed to last a life-time. The finish

is by the Levolute process,—a permanent insurance against peeling and tarnishing. From this simple, unobtrusive yet expensive looking line, you will derive the utmost satisfaction.

STYLED for Colonial interiors, they will, however, complement most American homes.

THE high-quality glass shades are frosted in the center with a clear top and bottom and the dainty candle is visible in silhouette.

Stock Finish: Old Bronze.

Available on order only in Colonial Brass or Pewter.

# Plymouth Series

LEVOLITE Colonial Fixtures are noted for their distinctive correct style and dependable quality. They continue to be the choice of discriminating architects, decorators and home owners.

AMONG the new designs in Levolites, the Plymouth Series in particular, makes for correct styling and harmony in any decorative scheme. In construction and workmanship, as well as in decorative effect, they are eminently suited for living rooms and dining rooms.

IF you are planning a smart modern living room, dining room, or are building a new home or remodeling your old home, you will find this type of fixture—the new Plymouth Series, particularly interesting because of their almost unlimited decorative possibilities.

THE most discriminate will joyously confess that they did not think it possible to create such an attractive fixture at such a low price. It is "a lot of fixture for the money."

# *A New Idea for Colonial Settings*

THESE maple fixtures are a new addition to the long line of innovations contributed by Levolute to the advance of interior decoration.

THE delightful frosted chimneys with beaded clear tops set in cups of Colonial Brass or Pewter and supported by a base of maple, help to augment this effect.

THE low cost of these fixtures is surprising.

A complete line for every room of the house.

Stock Finish: Colonial Brass and Maple.

Available on order only in Pewter and Maple.

# Maple in Vogue

(continued)

THERE is a fixture for every room in the house—living room, dining room, bed room, hall, upper hall, library, dens and breakfast rooms. And every fixture has that warm personal touch which gives your surroundings a feeling of amiability and ease. This line will satisfy the ever-growing demand for Maple lighting fixtures.

SURPRISING as it may sound, Maple fixtures will fit into almost any interior regardless of period or style.

Stock Finish: Colonial Brass and Maple.

Available on order only in Pewter and Maple.

## Pine Tree Series

DESIGNED and styled for knotty pine interiors, this series is appropriate for American homes.

THOSE who love the overwhelming beauty of the pine forests, will find in this line a source of pleasure and enjoyment.

THESE fixtures are also a picturesque addition to Colonial homes.

Parchment shades not included in price.

Made of solid Brass, finished in Colonial Gold and Pewter.

**L2221A**—A two light bracket for living or dining rooms. The symmetrical design, the rugged appeal and the finely chased symbol of the pine tree

make it irresistably attractive.

**L2224**—A delightful three light fixture with a parchment shade for breakfast rooms or sun parlors.

**L2225**—An impressive fixture for living or dining rooms. Note the simple, graceful arms and the delicately chased castings of the pine tree motif.

# Milford Series

THE Milford Series is a typical modernization of the Colonial Style, adopted to meet the demands of interior decoration in the Twentieth Century.

THE Milford Series retains the interesting characteristics of American Sconces—the symmetry of the scallops, the grace of the hand-turned Brass spindle, the finely hand-molded loop. The wind-guards, frosted in the center to avoid the glare, permit the candle inside to show through—a quaint and smart effect. A distinctly modern touch is provided by polished glass bobeches

PAGE 64

and highly polished crystal glass balls that adorn the top and bottom of the shapely spindle.

PERHAPS the most versatile of all types of fixtures is this Milford Series. If it is desired, any of these fixtures can be used in Colonial, Provincial, Empire or Modern Interiors. On the other hand, they can also be employed in combinations of different periods to make an endless variety of specially designed decorative schemes.

THERE is a fixture for every need in every room.

THE low cost of the Milford Series is amazing. Stock Finish: Colonial Brass.

Available on order only in Old Bronze.

Silk shades not included in price. For price of same, refer to price list.

## Pilgrim Series

THE loveliness and appealing simplicity of the Pilgrim Series make these fixtures unusually smart and spell contentment for those who love their home. The interior decorators who specialize in early American periods, have always admired the beauty and the great variety of the Levolute Colonial Lines.

COLONIAL fixtures are noted for their distinctive correct style and dependable quality. Frankly luxurious in every detail these New England Colonial fixtures, with their delicately

hand turned brass spindles, their fine glass shades engraved with an enhancing grape cluster design, and those scintillating crystal prisms, are a charming example of Colonial architecture.

EVERYTHING you want in a lighting fixture—at less than you expect to pay.

Stock Finish: Colonial brass.

Available on order only, in old bronze or pewter.

## *Early American Iron*

THESE fixtures were carried out by LEVOLITE artisans, inspired by finely wrought and carefully forged Early American handicraft.

THE broad founts which serve as receptacles for the frosted clear top chimneys, the heavy hobnail center urns set off by shapely Bronze spinings, and the coarse knotty loop, will cheer up the interiors of English, Early American and Colonial homes.

## Sconces & Fixtures

LEVOLITE'S Early American Iron sconces and center fixtures have become more and more popular in recent times.

THE Warwick Series is inexpensive in spite of its attractiveness and its wearing quality. It will fit the smallest budget, yet the fixtures are beautiful and practically indestructible. They are excellent examples of the efficiency used in the manufacture of Levolites. They are recommended to those who wish to keep their expenses within a moderate budget.

Parchment shades not included in price.

Finish: Swedish Iron blended with Old Bronze.

# Rustic Swedish Iron Series

THIS series is presented for the many rooms requiring unusual fixtures to supply that necessary decorative touch which will give an interior character.

THEY are of durable construction, finished to last a lifetime, and are surprisingly low in price.

Finish: Swedish Iron.

IT has been a problem of our times to find a way of decorating homes harmoniously and in keeping with their furnishings. This has been true particularly of interiors where a note of individuality prevails. Rustic Iron fixtures with their sturdiness of construction, their genuine appearance and hand forged effect will add

character and prestige to almost any room.

PARTICULAR attention is drawn to the two brackets L346 and L346A, which are reproductions of a barn door hinge.

Stock Finish: Swedish Iron.

Available on order only in Rusty Iron.

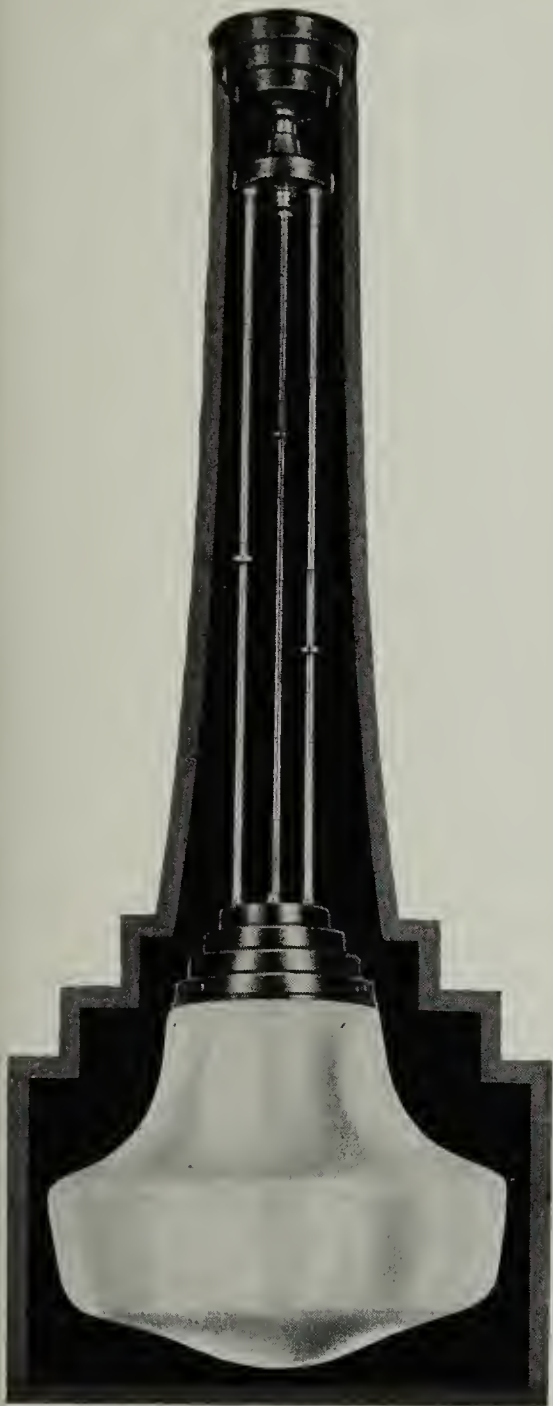

# OFFICE AND STORE LIGHTING

SOLID construction, precision of workmanship and durability of finish have made these fixtures the outstanding value for commercial establishments. The Levolite process of Chromium plating has rendered these fixtures immune

to the rigors of atmospheric conditions and to the ordinarily disastrous effect of steam, vapor and water. Wiped with a warm, damp cloth, the brilliant lustre will last forever.

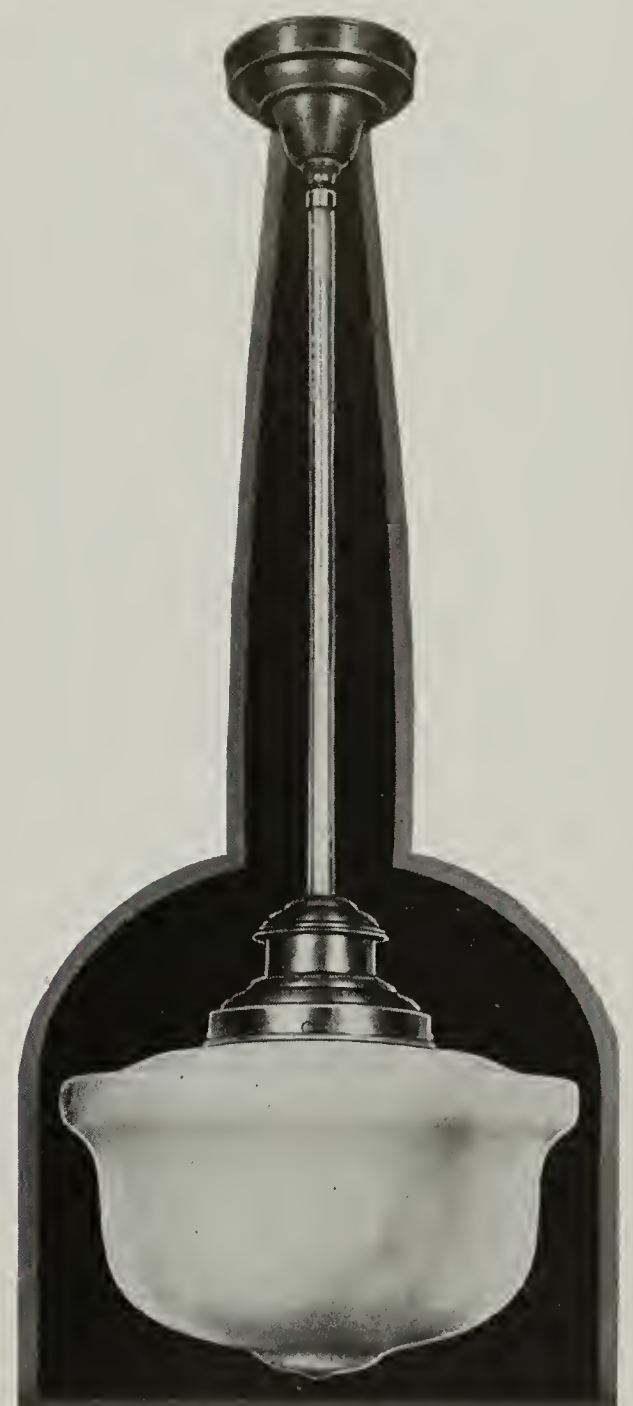

Finish: Chrome.

## OUTDOOR LANTERNS

FOR centuries, the weary wayfarer was guided through dark nights by the wavering light of a lantern. Many of the most beautiful specimens have been preserved and now are museum pieces. Some have been reproduced by Levolite's expert craftsmen and are pictured on this page. They are exact replicas of famous hand-wrought models. There are also a few others which are original creations by Levolite designers. This large assortment of typical old-fashioned lanterns, stands out because of their distinctive individuality.

APPROPRIATE for Colonial and English exteriors.

AN exclusive group of Old English and American patterns, made of Solid Bronze, Weatherproof and Rustproof.

Finish: Weathered Bronze.  
Available on order only in Weathered Green or Black.

# IMPORTANT INFORMATION

- LEVOLITE FIXTURES ARE GUARANTEED AS TO FINISH AND CONSTRUCTION.
- ALL LEVOLITES are stamped with our trade mark on the inside of the canopy or bracket. This is your guarantee of a finished product perfect in every way.
- AURORA labels are attached to the glass shades, assuring you of glareless and shadowless light.
- THE suggested finishes for the fixtures illustrated are the best for them, and have been determined by our staff of stylists and designers. Special finishes can be applied to the fixtures, but in most cases it has been found they detract from the artistic beauty of the fixtures. "SPECIALS" add to the cost of the fixture and usually delay prompt delivery.
- SILK or PARCHMENT shades are not included in the price of the fixtures. They are merely illustrated to show how they can complement the fixtures. Prices for same are listed in price list.
- LEVOLITE SERVICE is an established fact. We are prepared to ship any quantity on short notice to meet any delivery date.
- ALL LEVOLITES are carefully examined, tested and packed in corrugated cartons. They are then forwarded to the carrier you specify. The carrier's receipts for Levolute shipments signify the cartons were in perfect shape. When loss or damage occurs, the carrier assumes all the responsibility, as the charge you pay to the carrier for transportation covers insurance for the safe arrival of all shipments. If your shipment arrives in poor shape, or part of shipment is missing, or should you discover concealed damage, notify the carrier or their agent immediately, and obtain a statement from agent as to the condition of the shipment. The transportation company will reimburse you for any loss sustained. We are willing to assist you in every possible manner in collecting your claim for loss or concealed damage, but this willingness on our part does not make us responsible for collection of claim.
- NO returns accepted unless authorization is first obtained from us.
- WE will be pleased to extend credit to firms rated in Dun and Bradstreet, or through the furnishing to us of satisfactory credit reference. All C.O.D. orders or sight draft attached to bill of lading must be accompanied by a deposit of 25% of the order.

## WORD DESCRIPTION OF GUARANTEED LEVOLITE FINISHES

- COLONIAL BRASS, the natural color of virgin brass, hand-buffed, polished and then lacquered to preserve its lustre.
- OLD BRONZE, a reproduction of the subdued beautiful patina deposited on bronze by age.
- PEWTER, the individual natural beauty of polished pewter metal applied to brass for durability.
- BRONZE AND GOLD, a harmonious combination of oxidized bronze relieved by polished brass.
- OXIDIZED SILVER, a rich deposit of silver antiqued to simulate age.
- COLONIAL GOLD, polished gold subdued by hand toning.
- OLD GOLD, antiqued dull gold.
- IVORY AND GOLD, a toned cream enamel with highlights of gold, lacquered to preserve its color.
- WHITE AND GOLD, antiqued pure bone white with highlights of gold.
- WEATHERED BRONZE, a natural bronze oxidized for beauty and long life — the perfect finish for outdoors — weatherproof and rustproof.

# PRICE LIST AND INDEX

## BOOK L

The prices listed below are subject to change without notice.

Parchment shades, silk shades and bulbs are not included in the price of the fixtures.
